---

Wade,

At the various meetings Dr. Warford and I have attended, Summit Carbon Solutions ("Summit") has indicated that Summit believes it would be costly to move the pipeline location to the north and northeast of Bismarck from its current proposed location. In that regard, could you kindly please provide us with the following:

1. A copy of any cost analysis or study performed by Summit or any third parties as to the costs associated with moving the pipeline location to the north and northeast of Bismarck. To the extent that analysis has been performed, we request all details in relation thereto.
2. If no cost analysis or study to relocate the pipeline to the north and northeast of Bismarck has been performed by Summit, does Summit plan to do such an analysis?

We would appreciate if you could provide a written response to this email no later than March 2, 2023.

Kindly please reply to all. Thank you for your consideration.
