Case No.: PU-22-400

Notice of Annual Update to the Generation Resource Recovery Rider with the North Dakota Public Service Commission

On November 1, 2022, Montana-Dakota Utilities Co. (Montana-Dakota) filed its application with the North Dakota Public Service Commission (Commission) to update its Generation Resource Recovery Rider (GRRR) rates in accordance with the Company's Generation Resource Recovery Rider Adjustment Rate 56 tariff that states the rates will be revised annually to reflect the most recent projected costs to be recovered.

The GRRR rates include North Dakota's allocation of the Company's investment in its Reciprocating Internal Combustion Engines (RICE) units at its Lewis & Clark Generation Station that are not being recovered through the Company's electric rates.

On February 8, 2022, the Commission approved Montana-Dakota rates effective with service rendered on and after March 1, 2023. A typical residential customer using 894 Kwh will see a decrease of \$0.15 per month or a decrease of \$1.80 annually. The GRRR is shown as a separate line item on your bill.

Residential & Small General	
Applicable Rate Schedules	10, 13, 16, 20, 25, & 40
Current Rate	\$0.00185 per Kwh
