Bond Release 1, Permit NACT-1801
Application

Case No. RC-22-428

RELEASE OF BOND
FOR SURFACE COAL MINING AND RECLAMATION OPERATIONS

September 27, 2024

Based on the application for **Bond Release Number 1 for Surface Coal Mining Permit NACT-1801**, dated December 13, 2022, and all information and documentation contained therein, the North Dakota Public Service Commission finds that:

1. Attached to the application for release of bond were copies of all letters sent by the Permittee as required by NDCC §38.14.1-17(1)(b). Affidavits of publication for the advertisement required by NDCC §38.14.1-17(1)(a) have been filed and have been made part of the application for release of bond. The last date of publication was October 5, 2023.
2. On September 26, 2023, the Commission conducted an inspection and evaluation of the reclamation work involved in this bond release as required by NDCC §38.14.1-17(3). The surface owners, agents, or lessees were given notice of the bond release inspection and had the opportunity to participate with the Commission in conducting the inspection of the bond release areas at the Freedom Mine.

In accordance with NDCC §38.14.1-17, Bond Release No. 1 for Surface Coal Mining Permit NACT-1801 is hereby granted to the Coteau Properties Company effective October 28, 2024, unless a formal hearing is requested. No monetary release is being requested since the current bond amount is based on the worst-case reclamation condition in a consolidated bond area that includes this permit and others at the Freedom Mine. The area is described by metes and bounds descriptions and is generally as follows:

The S½S½ and the NE¼SE¼ of Section 17, T145N, R87W, Mercer County,
releasing all reclamation liabilities on 197.938 acres.

The decision to release all remaining bond on this acreage is made for the following reasons:

The Coteau Properties Company has met the requirements of the reclamation law and rules administered by the Commission for successfully reclaiming 126.3 acres of tame pastureland that includes one stock pond and one developed wetland totaling 2.7 acres, 5.23 acres of abandoned farmstead, and 5 acres of reclaimed county section

line roads. The bond release application contains approximately 58.71 acres of land that was not disturbed by mining and reclamation activities. The vegetation success standards and all other applicable performance standards have been met to the satisfaction of the Commission. The acreage included in this bond release is subject to the 1979 reclamation law.

IMPORTANT – PLEASE READ

1. If bond release has been approved, actual release of bond shall not occur until the effective date of this decision. If a formal hearing is requested on this bond release decision by a person with a valid legal interest or by the head of any state or local government agency with appropriate jurisdiction, the actual release of bond may not occur until after a final decision is issued following the formal hearing. A request for formal hearing by any such person must be filed with the Public Service Commission within 30 days of this bond release decision.
2. If bond release has been disapproved or if you are unsatisfied with the amount of bond approved for release, you have the right to request a formal hearing regarding this decision by filing an application for a hearing with the Public Service Commission within 30 days of the date of this decision.
