Re: Fuel and Purchased Power Adjustment Temporary Waiver
Case No. PU-23-330
December 2023 – Update of under collected balance

On October 24, 2023, the North Dakota Public Service Commission approved Montana-Dakota Utilities Co's. (Montana-Dakota) request for a waiver of the filing requirement in the Company's Fuel and Purchased Power Adjustment – Rate 58. Order Point two requires a monthly update of the under collected balance through March 31, 2024.

Absent the waiver, the December Fuel and Purchased Power Adjustment would have been 5.858 cents per kWh for primary service customers and 6.000 cents per kWh for secondary service customers.

The Deferred Fuel Cost Account is projected to have an under collected balance of \$4,654,961 for primary service customers and \$18,546,331 for secondary service customers through October 31, 2023. Based on those balances, the estimated annual surcharge would be 1.073 and 1.103 cents per kWh for primary service customers and secondary service customers, respectively.

If you have any questions regarding this filing, please contact me at (701) 222-7855 or Travis.Jacobson@mdu.com.

Sincerely,

/s/ Travis R. Jacobson
