

February 24, 2023

Mr. Steve Kahl
Director of Administration
North Dakota Public Service Commission
600 E. Boulevard Ave., Dept. 408
Bismarck, ND 58505-0480

Dear Mr. Kahl:

Enclosed is detail for determination of the Energy Adjustment Rider rates by Service Category based on the four months ending January 2023.

Per Commission approval in Case No. PU-17-398, the following changes to the Energy Adjustment Rider are reflected in the rates effective March 1, 2023:

1. All applicable revenues and costs allowed for recovery in the Energy Adjustment Rider are recovered through a one-part fuel cost rate in the Energy Adjustment Rider rates. No fuel-related costs are recovered through base rates for service rendered on and after February 1, 2019.
2. The "E8760" Energy Adjustment Factor Ratios are used to calculate the Class Energy Adjustment Factors (EAF) for each customer service category defined by Customer class. The Class Energy Adjustment Factors (EAF) are applicable on bills rendered on and after February 1, 2019.
3. The recovery of the reagent and emissions allowance costs are now recovered in the Energy Adjustment Rider. The Reagent and Emissions Allowance Adjustment Rider portion of the Environmental Cost Recovery Rider (Electric Rate Schedule Section 13.08) is no longer in effect.
4. The recovery of Coyote Station pebble lime reagent is no longer in base rates, but is recovered in the Energy Adjustment Rider.

Waiver Request

Additionally, Otter Tail requests a one-time waiver, from its tariff provisions to permit reduction of the FCA charges by \$14 million of January's costs in the March 2023 rate calculation and increase them by \$3.5 million in each month from April through July. This waiver will permit the smoothing of cost recovery for the energy costs so they do not rise (abruptly) for a single month. Instead, the waiver will permit more gradual bill impacts for our customers. The waiver will not change the amount recovered over the period, only the timing of the recovery.

Background / Bullet Point overview:

- Big Stone Plant was offline for outage from November 5, 2022 through the month of January 2023, for the purpose of examining and considering repair of its “exciter,” which was experiencing a vibration condition.
- Otter Tail procured replacement power in December from the market and through forward purchases to cover the expected energy that would have been produced by Big Stone but for the outage. These procurements were for both December 2022 and January 2023.
- The purchases were at a cost higher than the fuel costs that would have been incurred to operate the Big Stone Plant, and therefore the monthly fuel and purchased power costs for December and January were higher than prior months.
- Incorporating those December and January costs into our normal monthly fuel clause mechanism calculation would yield an average monthly rate for March of \$0.04554 per kWh. (For comparison, February’s average effective rate was \$0.03323, which did reflect higher December costs associated with the Big Stone outage).
- Big Stone Plant personnel located, rented, and installed a temporary “exciter” that allowed us to bring the plant back on-line on February 9, 2023.
- Because the outage and the increase to power costs was temporary and the plant is now back on-line, we expect costs to return to normal (of course, actual future costs will reflect actual market conditions and the ongoing performance of our generation facilities).
- There is an opportunity, in this unique circumstance, to mitigate the abruptness of rate impacts relating to the outage by spreading them over a somewhat longer period than would ordinarily occur under the terms of our tariff.
- We are therefore proposing a waiver to our tariff to defer and spread a portion of the January costs for recovery over the rate calculations for four months, April, May, June and July.
- The proposed deferral adjustment is \$14,000,000. Incorporating that cost deferral would reduce the system average March rate to \$0.03853 per kWh.
- Otter Tail proposes to include \$3,500,000 per month for the 4 months (April, May, June, July rate calcs) to recover those costs.
- The estimated impact of including the costs in each of those months is an increase in the monthly rate by approximately \$0.00175 per kWh.
- This request will not change the amount of costs recovered; it will only change the timing of recovery (instead of recovering them in one month, they will be recovered over four months).
- Given current views of market prices and assuming normal operations from Otter Tail generation resources, Otter Tail anticipates monthly costs be back to more historical levels and therefore this circumstance permits this one-time change to the timing of recovery.
- The risk associated with this requested approach is if other costs were to unexpectedly increase over the four-month period, the impacts in the four-month recovery window would need to be reconsidered so that they don’t cause undesirably high rates in those months. While we don’t expect that to occur, if it

did occur, we would follow up with the Commission to consider other options for the timing of recovery.

Information supporting the adjustments is enclosed. The costs reported in the supporting detail are based on the provisions of the Energy Adjustment Rider by Service Category approved by the Commission in the Order dated September 26, 2018, in Case No. PU-17-398.

Otter Tail Power Company submits an original and two (2) copies each of the following:

- 1) Calculation of the March 2023 Energy Adjustment Rider based on the four-month period ending January 2023.
- 2) Monthly Detail of MISO Day 2 Charges by Charge Type for ND Energy Adjustment Rider marked as Attachment A (2 pages).
- 3) Monthly MISO Day 2 Charges for ND Energy Adjustment Rider marked as Attachment B.
- 4) Monthly MISO Day 2 Charges for ND Non-Energy Adjustment Rider marked as Attachment C.
- 5) Detail of MISO Day 2 Charges by Charge Group for Current Month marked as Attachment D (2 pages).
- 6) Otter Tail's Plant Conditions for January 2023 marked as Attachment E.
- 7) Monthly Detail of Southwest Power Pool (SPP) Charges by Charge Group for Current Month and Year to Date marked as Attachment F.

Please email invoice for \$50 filing fee to: Regulatory_Filing_Coordinators@otpc.com. Otter Tail requests to pay the invoice via credit card.

Sincerely,

/s/ DEREK HAUGEN
