In re: ONEOK Rockies Midstream, L.L.C.
Cherry Creek Extension Pipeline Project
McKenzie County
Case No. PU-23-015
Our File No. 072530-000018

Dear Mr. Kahl:

Enclosed for filing on behalf of ONEOK Rockies Midstream, L.L.C., please find eight copies each of the Discharge Permit approved by the ND Department of Environmental Quality and an agency response letter from the USDA – FSA regarding the above-referenced matter.

Please feel free to contact me if you have any questions. Thank you.

Sincerely,

Casey A. Furey

Re: NDPDES Permit No. NDG070949 - Modification

We have received your modification request for permit no. **NDG070949**. This permit has been issued by the North Dakota Department of Environmental Quality (department) with the understanding that all other applicable permits and permissions have been obtained for the start of the following project. The request indicates that the discharge(s) will consist of hydrostatic test water associated with the Cherry Creek Extension Pipeline Project.

<u>Discharge Point</u>	<u>Volume (gallons)</u>	<u>Location</u>
002H	130,000	Cherry Creek Extension TWN 150N, RGE101W, SEC 36; McKenzie County

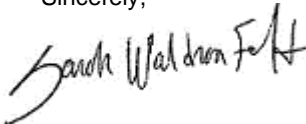

In the event of a discharge, all discharge points shall be inspected daily. On a daily basis, record the total volume of discharge and make a visual inspection for Oil and Grease. Analytical parameters for pH and Total Suspended Solids (TSS) shall be tested for this project. The parameter for Chlorine shall be tested only if the water source has been chlorinated. The parameter for Oil and/or Grease is waived unless a sheen is observed in the discharge; if observed then collect a sample for Total Petroleum Hydrocarbon (TPH). The department shall be contacted on all findings of Oil and Grease. All discharges made directly to a surface water body or wetland shall be inspected closely in order to minimize any turbidity issues. Best Management Practices (BMPs) must be used to minimize the impact of the discharge.

ADDITIVES: No additives were reviewed for this project.

The department has granted your request for a temporary waiver from electronic reporting. The waiver is not transferable. The waiver is effective November 22, 2023 and **will expire on March 31, 2025**. Enclosed are Discharge Monitoring Report (DMR) forms for your use. If someone else is responsible for the submittal of the DMRs, please forward this letter and the enclosed forms to them. The reports cover three months; the dates and location have been filled out. If no discharge occurs during the reporting period, check "No" in section one. The reports must be post-marked by the last day of the month following the end of each reporting period. All original DMR forms should be sent to the department and a copy should be kept for your files.

If any other testing is conducted during this project, copies of the results of any such test should be forwarded to the department. **Should you wish to no longer be covered under this permit, you must submit a written request to terminate and cite the reasons for termination.** Coverage shall be maintained until a written notification to release has been issued to the permittee by the department. Should you have any questions about your permit or how to complete the DMRs, please contact me at (701) 328-5237.

Sincerely,

Sarah Waldron Feld

Alea Doray,

Based on the shapefile that was provided for the Cherry Creek Extension Pipeline Project, it has been determined that no Conservation Reserve Program (CRP) contracts will be impacted by the this project.

If you have any questions, please feel free to contact me.

Thanks

Greetings,

My name is Alea Doray, and I'll be the ONEOK Bakken Pipeline, L.L.C. (ONEOK) Environmental PM on Cherry Creek Extension going forward. As requested, please find attached a shapefile/kmz of the ONEOK Cherry Creek Extension pipeline centerline route and North Dakota Public Service Commission (NDPSC) approved Corridor to base your review upon. Since the initial project

notification letter was sent to your office, ONEOK has finalized the route and received approval from the NDPS&C to proceed with the project. Construction is currently underway and is expected to be completed by the end of the year. ONEOK will file all correspondence received in response to the November 2022 project notification letter with the NDPS&C.

If you have any questions, please let me know. My contact information is below.

Best Regards,

Alea Doray, PG

Subject: (External) Proposed Transmission Line - McKenzie County

Rachel/Maddy

I'm writing this email in response to your letter, dated November 21, 2022, (see attached) regarding the proposed Cherry Creek Extension Pipeline Project in McKenzie County, North Dakota.

I realize that this project was scheduled to begin in April of 2023; however, in order for our agency to ensure that no program contracts were impacted by the project, I'm asking for a copy of the Shapefile pertaining to the described route. This information will be used by the ND State GIS Management Analyst, to assess the route to determine if there were any programs impacted as a

result of the project.

Please let me know if you have any questions.

Thanks

Wanda Braton
