Dear Commissioners,

Due to the increased height proposed for the turbines for the Langdon Re-Power Wind Farm Project, PU-23-86, additional area needs to be surveyed for indirect impacts to cultural resources. While we have seen initial information for the increased area of potential effect, we have not received the additional information and revisions we requested. At this time, we are unable to determine the effect on significant cultural resources.

Thank you for the opportunity to review this report.
