Northern States Power Company
Renewable Resource Cost Recovery (2024)
Rates

Case No. PU-23-312

NOTICE OF OPPORTUNITY FOR HEARING

On September 20, 2023, Northern States Power Company (NSP) filed a request for approval of its 2024 Renewable Energy Rider (RER). The purpose of this rider is to recover, from NSP North Dakota electric customers, costs of renewable energy generation not presently reflected in retail rates. In this filing, NSP would recover costs of four previously approved projects.

The 2024 RER rate would be applied to all energy billed to each customer effective January 1, 2024. The RER rate would decrease from \$0.002557 per kWh to \$0.002062 per kWh. As a result of the RER rate change, a residential electrical customer consuming 750 kWh would experience a bill increase of \$0.37 per month. The issues to be considered in this proceeding are:

1. Whether the investments and associated costs for the resources qualify for recovery,
2. Whether the incurred costs are reasonable and prudent and
3. Whether the rate adjustments are consistent with the terms of NSP's tariff

Those interested are invited to comment on the application in writing. Persons desiring a hearing must file a written request identifying their interest in the proceeding and the reasons for requesting a hearing. **Comments and requests for hearing must be received by December 8, 2023.** If deemed appropriate, the Commission can determine the matter without a hearing.

For more information contact the Public Service Commission, State Capitol, Bismarck, North Dakota 58505, 701-328-2400; or Relay North Dakota 1-800-366-6888 TTY. If you require any auxiliary aids or services, such as readers, signers, or Braille materials please notify the Commission.
