

**STATE OF NORTH DAKOTA  
PUBLIC SERVICE COMMISSION**

**Northern States Power Company  
Transmission Facility Cost Recovery (2024)  
Rates**

**Case No. PU-23-315**

**ORDER**

**December 13, 2023**

**Preliminary Statement**

On September 27, 2023, Northern States Power Company (NSP) filed an application for approval of its 2024 Transmission Cost Recovery Rider (TCRR) rate. The TCRR allows NSP to recover transmission capital and operating costs not presently reflected in base retail rates.

On October 11, 2023, the Commission issued a Notice of Opportunity for Hearing, which provided until November 22, 2023, for receiving written comments and hearing requests. No response was received. The notice identified the issues to be considered in this matter are:

1. Whether the proposed rate adjustment complies with NSP's tariff,
2. Whether the incurred costs for new or modified electric transmission facilities are reasonable and prudent, and
3. Whether the incurred costs are eligible for recovery through the TCRR.

On November 22, 2023, the Commission discussed this matter with NSP during an Informal Hearing.

**Discussion**

This annual update includes the Rogers Lake 115kV bus expansion (transmission reliability project) and a congestion capacity increase project that are not currently in TCRR rates or base rates totaling a \$57,184 revenue requirement for 2024.

NSP proposes a 2024 TCRR revenue requirement totaling \$3,143,952, resulting in a 2024 TCRR rate of \$0.001442 per kWh for service rendered on or after January 1, 2024. This change results in a monthly billing increase for a residential customer using 750 kWh per month of approximately \$0.43 over the existing TCRR rate.

The proposed rate adjustment complies with the terms of NSP's tariff.

The incurred costs for new and modified electric transmission facilities are reasonable and prudent.

The investments and associated costs for the new and modified electric transmission facilities qualify for recovery through the TCRR.

Having considered this matter, the Commission finds NSP's 2024 TCRR rate is reasonable and should be approved. Therefore, the Commission issues its:

### Order

The Commission Orders Northern States Power Company's 2024 Transmission Facility Cost Recovery Rider rate filed on September 27, 2023, is APPROVED for service rendered on or after January 1, 2024.
