Bismarck, ND 58505

RE: Case No. PU-23-317 and Case No. PU-23-318

To: Commissioner Randy Christmann, Chair, Commissioner Sheri Haugen-Hoffart, and
Commissioner Julie Fedorchak

Dear Members of the North Dakota Public Service Commission,

Center Machine is a Service Disabled Veteran Owned small business located in Center, North Dakota. As its owner, I'm proud of the work we do to keep our local economy moving forward. Over the years we have done work repairing equipment and components for a variety of industries, including wind development companies. Our portfolio of clients includes NextEra Energy. I've seen, firsthand, their dedication and commitment to the communities that house their projects. I personally enjoy working with the maintenance crew from NextEra Energy, they are professional, courteous and a pleasure to work with.

Oliver Wind IV is projected to bring in \$21 million in additional tax revenue over the first 30 years of the project.

Wind projects and other larger industrial projects are investments in our communities. They should be welcomed.

I respectfully ask that you approve the permit for Oliver Wind IV.

Sincerely,

Jayar Kindsvogel

President
