**Re: Fuel and Purchased Power Adjustment Temporary Waiver  
Case No. PU-23-330  
February 2024 – Update of under collected balance**

On October 24, 2023, the North Dakota Public Service Commission approved Montana-Dakota Utilities Co.'s request for a waiver of the filing requirement in the Company's Fuel and Purchased Power Adjustment – Rate 58. Order Point two requires a monthly update of the under collected balance through March 31, 2024.

Absent the waiver, the February Fuel and Purchased Power Adjustment would have been 5.637 cents per kWh for primary service customers and 5.767 cents per kWh for secondary service customers.

The Deferred Fuel Cost Account has an under collected balance of \$6,410,230 for primary service customers and \$20,195,018 for secondary service customers as of December 31, 2023. Based on those balances, the estimated annual surcharge would be 1.477 and 1.201 cents per kWh for primary service customers and secondary service customers, respectively. Consistent with Rate 58, the Company expects to prepare its annual surcharge in March to be implemented with service rendered on and after April 1, 2024.
