One-Call Complaint – Public Service Commission

Complainant – Montana Dakota Utilities (MDU)

Respondent – Industrial Builders, Inc.

Date and Time of Event – 10/14/23 12:30 PM

Location – 204 G St S, Glen Ullin, ND 58631-7136

One-Call Ticket Number – 23132580

Description of the alleged violation/concern.

An MDU customer residing at 204 G St S, Glen Ullin, ND, called MDU on 10/14/23 stating both furnace and water heater were not working. MDU First Responder found fresh road construction done in the area by Industrial Builders, Inc. MDU dug up the natural gas service and found a piece of 3/4" plastic pipe that was milled up and sheared off. MDU Crew made repairs. Industrial Builders, Inc. left the scene, so MDU was unable to talk to Industrial Builders, Inc. at the time of the incident.

Toby Gross, Manager, District Operations, MDU, visited with Industrial Builders, Inc. when they received invoice #53118 dated 11/03/23 for \$575.97 (please see attached.) Toby Gross told Industrial Builders, Inc. they are responsible for payment, but at that time Industrial Builders, Inc. stated "they have dealt with this before and do not believe they need to pay since they were only doing road work."

This was the second such incident with Industrial Builders, Inc. in a 2-day timeframe. Industrial Builders, Inc. also hit a 3/4" plastic service line at 410 D St S, Glen Ullin, ND (filed in a separate complaint) on 10/12/23. At that time the MDU technician told the same equipment operator, Brad Ketterling, "to verify depth of all crossings."

Industrial Builders, Inc. dug prior to verifying marks by test hole (pothole).

In both instances, the locate ticket when asked of the work description depth, Industrial Builders, Inc. indicated the depth would be 5FT.

In addition, MDU does not guarantee the depth of their facilities due to changes in grade or erosion.

MDU received correspondence dated 11/27/23 from Industrial Builders, Inc. Please see attached correspondence for Industrial Builders, Inc. response to payment of invoice #53118.

RE: Invoice #'s 53118 & 53119

Dear MDU,

Industrial Builders, Inc. is being invoiced for repairs on two gas lines in the City of Glen Ullin, ND that were hit on 10-12-23. Industrial Builders, Inc. will not be paying these invoices as the work being completed was normal maintenance of a city street which did not change the original grade of the road and which did not involve work in the road ditch. According to the One-Call Excavation Notice System, Chapter 49-23-01, part 7d, this work is not considered "Excavation".

The plan detail below shows the work that was being performed and verifies that the original grade did not change. Industrial Builder's, Inc. was responsible for completing the 12" Cement Stabilized Base. The cut lines were buried less than 12" deep from the bottom of an asphalt paved street.

We encourage you to bring the matter before the ND Public Service Commission and the One Call Board of Directors.

Please contact me with any questions or concerns at 701-282-4977.

Sincerely,

Brian Meyer, Sr. Project Manager
Industrial Builders, Inc.
