Dear Ms. Berg:

The Reclamation Division has finished its review of the postmine topographic changes proposed with the pending Revision No. 29 application to Permit NACT-0201 and has no additional deficiency items. Grade approval requests granted in these areas will be contingent upon the approval of pending Revision No. 29. Coteau will be responsible for ensuring that postmining topography in the conditionally approved areas conform to the approved Revision No. 29 postmine topography.

Please contact us with any questions.

Sincerely,

A handwritten signature in blue ink, appearing to read "Jonathan Emmer".
