RE: Badger Wind, LLC's Application for a Certificate of Site Compatibility for the Badger Wind Project in McIntosh and Logan Counties, North Dakota Case No. PU-22-086

Dear Mr. Kahl:

On November 30, 2022, the North Dakota Public Service Commission ("Commission") issued its Findings of Fact, Conclusions of Law and Order, along with Certificate of Site Compatibility No. 64 (Case No. PU-22-86) to Badger Wind, LLC ("Badger Wind") for the Badger Wind Project ("Project") in Logan County and McIntosh County, North Dakota. Since then, Badger Wind has made changes to the Project, which include expanding the Project boundary and design modifications. Accordingly, pursuant to North Dakota Century Code § 49-22-08(5), Badger Wind is submitting to the Commission an Application for an Amended Certificate of Site Compatibility for the updated Project.

Enclosed for filing in the above-referenced case are an original and six (6) copies of the Application for an Amended Certificate of Site Compatibility, with accompanying appendices (public information only) and figures, and this filing letter. Badger Wind has provided hard copies of the updated Bird and Bat Conservation Strategy ("BBCS") (Appendix H), without appendices. An electronic copy of the full updated BBCS, with appendices, is being provided in the e-mail filing.

Also enclosed is a USB drive containing GIS data (public data only). Based on consultation with Commission staff, Badger Wind will pay the necessary application fee once the Commission has determined the appropriate amount.

An unredacted, NON-PUBLIC version of the Archaeological Reconnaissance Survey Report (Appendix L) and the associated GIS data will be provided under separate cover with an Application for Protection of Information.

Mr. Steven Kahl
