Leonardite Products, LLC, as applicant, has filed an application for final bond release on 28.9 acres of land in Williams County located in the West Half, Section 8, T154N, R100W, as shown on the map. This action will release the area for industrial land use, for which the 10-year revegetation liability requirements do not apply. The land is included in Permit GRGR-0501, which was approved by the Public Service Commission on November 2, 2005. Most of the land has since been mined by Leonardite Products, LLC and will be developed into an Inert Landfill disposal facility by Eco Park Landfill, LLC, in accordance with their Permit to Construct and Operate a Solid Waste Management Facility issued by the North Dakota Department of Environmental Quality. The purpose of the bond release is to relieve Leonardite Products, LLC of all liabilities associated with the construction, operation, reclamation, and closure of the disposal facility, which have become the responsibility of Eco Park Landfill, LLC, as regulated by the North Dakota Department of Environmental Quality.

Permit GRGR-0501 is currently bonded in the amount of \$427,029. As part of this final bond release application, Leonardite Products, LLC, is requesting a bond reduction of \$142,945. Upon approval of this bond release application, Leonardite Products, LLC will be released from reclamation liability for 28.9 acres in Permit GRGR-0501.
