Good morning, Jonathan,

Please see the link below for the Revision 1 of the Partial Bond Release No. 4 application and the response to comments received from the Public Service Commission.

<https://www.dropbox.com/scl/fo/y58f0gzihtp34feru9z5a/AFtfcuH05dATFQ8TeBc1JYU?rlkey=2raitwzdbira8mffdm4k524kq&st=5fojvhhi&dl=0>

The attached figure is not part of the application, but we thought it would be useful for clarification. In completing the responses and revisions to the BR4 bond release application document Westmoreland identified a discrepancy between the disturbance acres from the 2023 annual report and the disturbance acres provided in the bond release application. The annual report provided a total of 3,562 acres of disturbance within the KRSB-8802 boundary, however this acreage did not include 154 acres of facilities on the west side of the permit. The attached image shows the areas of discrepancy between the annual report disturbance area and the disturbance area in the bond release application. The revised bond release application includes a disturbance boundary shown on exhibits in Appendix V and in the bond calculations provided in Attachment VII. The total disturbance acreage within the permit area has been revised to 3,716 acres.

Please let us know if you would like to set up a meeting to discuss any questions your team may have after you've had a chance to review.

Thanks,

Nettie
