Hello Larry, It is crazy how fast summer has gone, isn't it? It seems all I have done is work! Applied's expansion is an impressive looking facility. I agree it is within our Service Area Agreement and DVEC will not protest the CPCN.

Thanks for reaching out and including the map.
Enjoy what's left of summer.
Mark

Hi Mark

I hope your summer is going well and hard to believe labor day weekend is almost upon us. I just wanted to reach out regarding an amendment we plan to file soon with the NDPS for Applied Digital Data Center #2. As part of the amendment we will be requesting an additional 125 MW of capacity and updating the service location map in the ESA with the attached. The new area of the expansion will also require us to file another CPCN with the NDPS to cover the new area noted in purple on the attached map. The proposed expansion area is still within the area covered by our Service Area Agreement and as per the Service Area Agreement the revenue sharing arrangement will apply as well. I would expect that Dakota Valley will not protest the CPCN but please confirm.

Thanks and if you have questions please let me know.
Larry
