

**STATE OF NORTH DAKOTA  
PUBLIC SERVICE COMMISSION**

**Northern States Power Company  
Renewable Resource Cost Recovery (2025)  
Rates**

**Case No. PU-24-341**

**NOTICE OF OPPORTUNITY FOR HEARING**

On September 20, 2024, Northern States Power Company (NSP) filed a request for approval of its 2025 Renewable Energy Rider (RER). The purpose of this rider is to recover, from NSP North Dakota electric customers, costs of renewable energy generation not presently reflected in retail rates. In this filing, NSP would recover costs of four previously approved projects and two new projects.

The 2025 RER would be applied to all energy billed to each customer effective January 1, 2025. The RER rate would remain \$0.002062 per kWh. As a result of the RER rate not changing, a residential electrical customer consuming 750 kWh would experience no change in their bill. The issues to be considered in this proceeding are:

1. Whether the investments and associated costs for the resources qualify for recovery,
2. Whether the incurred costs are reasonable and prudent, and,
3. Whether the rates are consistent with the terms of NSP's tariff

Those interested are invited to comment on the application in writing. Persons desiring a hearing must file a written request identifying their interest in the proceeding and the reasons for requesting a hearing. **Comments and requests for hearings must be received by December 6, 2024.** If deemed appropriate, the Commission can determine the matter without a formal hearing.

For more information contact the Public Service Commission, State Capitol, Bismarck, North Dakota 58505, 701-328-2400; or Relay North Dakota 1-800-366-6888 TTY. If you require any auxiliary aids or services, such as readers, signers, or Braille materials please notify the Commission.
