The morning of the 26<sup>th</sup> would be our preference as well.

I am still waiting to hear from a couple folks that are out on inspections today. If it works for them, I will let you know, and I will start drafting letters to adjacent surface owners and agencies.

Thanks again,

Warren Swenson

Sounds good about the metes and bounds.

November 26<sup>th</sup> will work if we can do it in the morning before noon, if that doesn't work December 4<sup>th</sup> or 5<sup>th</sup> will work the best for us.

Thanks,  
Tanner

Thanks Tanner.

Just hold onto the Metes and Bounds until the next technical review.

Jeff Roerick and I were just taking about getting the inspection set up, does it work for you and any other staff to do the inspection on Tuesday, November 26<sup>th</sup>? I am still waiting from the rest of the PSC staff to hear if the 26<sup>th</sup> works for them.

If not, we would be looking at December 3<sup>rd</sup> through the 5<sup>th</sup>.

Hey Warren,

I want to let you know that Falkirk is going to send the letters to interested parties on Friday and the publication dates for The McLean County Independent are set for November 21<sup>st</sup>, 28<sup>th</sup> (Thanksgiving), December 5<sup>th</sup>, 12<sup>th</sup>.

Also I updated the Metes and Bounds Description, would you like the updated copy sent to you or just want until the technical review for the whole package together?

Thanks,  
Tanner

Tanner,

Our response letter was drafted last week and should be sent in the next day or two. After you receive the letter and send us confirmation of publishing, we can get the inspection scheduled.

There should not be any issue with getting the inspection done before the last week of November/first week of December (as long as the holidays don't get in the way too much).

Hey Warren,

Just checking in to see how the bond release 6 is coming along, if things look good do you think we could schedule a field inspection before the end of November?

If there's any questions about the package just let me know so we can get it figured out.

Thanks,

**Tanner Jochim**
