RE: Contract Renewal for the 2024 Exploratory Drilling AML Project

Dear Mr. Meuchel:

Earth Energy & Water Systems, Inc.'s contract (Contract No. AM-896-24) with the state of North Dakota will expire on December 31, 2024. The contract contained an option to renew the contract for a period of six months. We intend to offer a renewal of the contract for six months. The contract's performance period would begin upon execution of a contract amendment by all parties and would end on June 30, 2025.

We are currently waiting for authorization to proceed (ATP) from the Office of Surface Mining Reclamation and Enforcement before we can renew this contract for another six months. Once ATP is received, we will submit a contract amendment that must be mutually agreed upon in writing before the contract can be renewed. If you intend to renew the contract, please contact us by December 2, 2024.

If you have any questions, feel free to contact Brett Job or me.

Sincerely,

Jonathan Emmer
Director, AML Division
