QUESTION:

I am looking at the 2025 Phase X project and would like to get the information from last year's drilling and grouting project.

Please email me the following:

1. Total feet of drilling
2. Total feet of casing
3. Total CY of grout
4. Any other information pertinent to the job.

ANSWER:

The project summary from the 2024 Lehigh Road Phase IX AML Project contains all of this information and is posted on the North Dakota Public Service Commission website here: [2024 Completed Projects Archive: Public Service Commission, North Dakota](#)

QUESTION:

What percentage of the grout will be going to each jobsite? (Scranton or Dickinson)

ANSWER:

Depending on the voids found in the drilling process, this could vary greatly depending on the amount and size of the voids found. The Scranton site will be drilled and grouted before the Dickinson site.
