Dear Mr. Frye:

The Reclamation Division has completed its technical review for Falkirk Mining Company's application of Revision No. 37 to Permit NAFK-9503 at the Falkirk Mine. We plan to approve Revision No. 37 during the April 10, 2025 Commission meeting. The Reclamation Division understands that additional updates were provided with the February 27, 2025 response to the February 24, 2025 technical review letter that included an update to the boundary of the Fifth Deletion Tract #3 in the NW¼, NE¼, and SW¼ of Section 18, T145N, R82W that resulted in a slight acreage reduction.

Please address the item below and provide us with a final clean copy of Revision No. 37 to Permit NAFK-9503 after making the appropriate edits.

Section 1.1.1 – Application Forms

1. Section 1.2.1 (Legal Description of Permit Area), Section 1.2.2 (Metes and Bounds Map), and Section 3.1.5 (Pit Layout and Facilities Map) have been updated to reflect the boundary change of the Fifth Deletion Tract #3; however, the Revision No. 37 application form (Section 1.1.1) was not updated. Please update the revision narrative and the deletion acreage summary table in Section 1.1.1 (Application Forms) to reflect the updated boundary in Section 1.2.2i (Fifth Deletion to Riverdale Permit Metes and Bounds) and provide us with the original copy. (BSM)

If you have any questions, please contact this office.

Sincerely,

Jonathan Emmer
Director
Reclamation Division
