Mr. David Kuzara
Manager, Environmental & Regulatory Affairs
Westmoreland Beulah Mining LLC
Beulah Mine
PO Box 39
Beulah, ND 58523-0039
dkuzara@westmoreland.com

Dear Mr. Kuzara:

The Reclamation Division has finished its review of Westmoreland Beulah Mining LLC's (WBM) post-mine topographic changes, dated 4/20/2026, proposed with the pending Revision No. 36 application to Permit KRSB-8603 and has no additional deficiency items. Revision No. 36 modifies the post-mine topography in the Iron and Gold Pit areas. Therefore, WBM is conditionally approved to use the proposed post-mine topography in Revision No. 36 for grade approval requests. Grade approval requests granted in these areas will be contingent upon the approval of pending Revision No. 36. WBM will be responsible for ensuring that post-mining topography in the conditionally approved areas conforms to the Revision No. 36 post-mine topography.

Please contact us with any questions.

Sincerely,

Jonathan Emmer
