In response to the complaint filed against us by Kinder Morgan, represented by Ryan Farmer, on 7/24/26:

The landowner for this job hired us to assist him finishing a fence so he could turn his cows out. He informed us he had been the landowner his entire life (senior citizen) and there were absolutely no underground lines except for the one pipeline which he had personally approved and watched being installed. H & H Fencing, LLC informed him that we could not do any work without a locate by One Call first. The landowner stated he had placed a locate request. The landowner insisted there were no lines and stated he would install the posts himself in the exact same place as the old posts if H & H Fencing, LLC would complete the rest of the fence. The landowner then placed the posts and H & H Fencing, LLC strung the wire. The pipeline was not crossed by any excavations and H & H Fencing, LLC did nothing to the pipeline except drive across it.

Sincerely,

Nathan Hofer
