RE: Revision 45 to Permit NAFK-8405

Dear Mr. Emmer:

The North Dakota Department of Environmental Quality, Division of Water Quality reviewed Falkirk Mining Company's application for revision number 45 to Surface Coal Mining Permit NAFK-8405. We have no objection to the revision which identifies the coal removal subareas that will be mined during the next five-year permit term, and updates the introductory, legal and compliance information, surface and coal interest and ownership, geology, fish and wildlife resources, operation plans, extended mining plans, transportation facilities, surface water management, and reclamation plans and schedule.

At this time, the Division of Water Quality has no further comments regarding this revision.

Sincerely,

Dallas Grossman
Environmental Engineer
Division of Water Quality
