Otter Tail Power Company
Transmission Facility Cost Recovery (2026)
Rates

Case No. PU-25-252

NOTICE OF OPPORTUNITY FOR HEARING

On September 15, 2025, Otter Tail Power Company (OTP) filed an annual update under its Transmission Facility Cost Recovery Rider (TCRR) tariff. The proposed rate for 2026 includes updates to previously approved projects, the addition of the Generator Interconnection Projects and associated revenue to the TCRR as agreed to in the prior rate case and updated Regional Transmission Organization expenses and revenues. The increase for a residential customer using 1,000 kWh per month would be \$1.48 per month proposed to be effective January 1, 2026. The issues to be considered in this proceeding are:

1. Whether the proposed rate adjustment complies with OTP's tariff,
2. Whether the incurred costs for new or modified electric transmission facilities are reasonable and prudent, and
3. Whether the incurred costs are eligible for recovery through the TCRR.

Those interested are invited to comment on the application in writing. Persons desiring a hearing must file a written request identifying their interest in the proceeding and the reasons for requesting a hearing. **Comments and requests for hearing must be received by November 18, 2025.** If deemed appropriate, the Commission can determine the matter without a hearing.
