3-1-5 Pit Layout_Revision 39.pdf; 3-6-1d_Pond Construction Schedule.pdf; Section 1_Surface Water Management_Screenshot.pdf;

Good Morning,

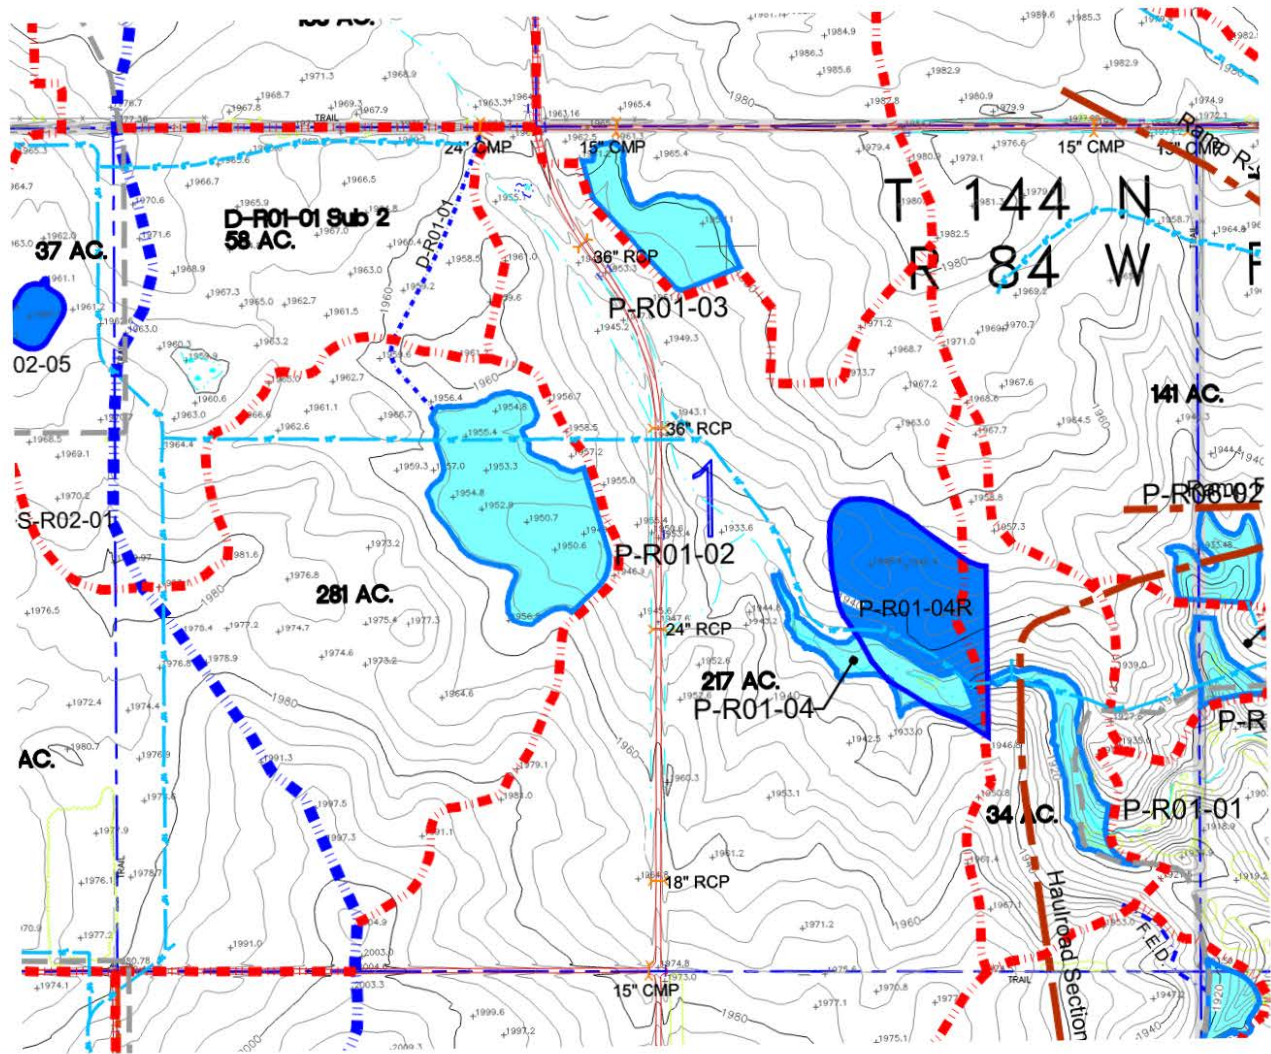

In follow-up to our phone conversation this morning, I have attached the pit layout and facilities map for Revision 39 which shows where mining will occur during the next five year permit term. I also included a screenshot of the surface water management plan map of Section 1, T144N, R84W since the file is too large to email. Section 1 currently contains three sediment ponds and sediment pond P-R01-04R is planned to be constructed in 2026 in the E1/2 of Section 1. Lastly, the pond construction and reclamation schedule is attached for your reference. If you have any other questions, feel free to reach out.

Jonathan Emmer
