

REVISION 13 SUMMARY to BNCR-1101

The purpose of Revision 13 to BNCR-1101 is to update the Legal and Financial and Operations sections of Permit BNCR-1101. This revision specifically will add Oliver County approvals for an overpass and haul road design on 37th Ave SW between 27th and 28th St. SW to access the mine area permitted in Revision 8, and document road conditions in the new mine area prior to disturbance, these two items are to satisfy Special Condition #5 to the permit first noted in Revision 8. In addition, this revision adds reference to a permit received from the United States Army Corp of Engineers to cross an intermittent stream (disturb within 100 foot stream buffer) in Section 13 with Haul Road Section B to satisfy Special Condition #6 to the permit. The Transportation Plan was revised to update the discussion around Haul Road Section B, depict the planned overpass, and includes updates to discussion and depiction of approved road closures. The Surface Water Management Plan was updated with a revision to a sediment pond near the haul road crossing with 37th Ave. The Pit Layout and Facilities Map was updated to include changes around the overpass plan. Finally, this revision includes the addition of two variance areas within the Reclamation Schedule and updates to some existing variance area descriptions. The Reclamation Variance Area Map and narrative were updated to depict their location on the map and to add discussion around the requested variance areas.

List of Changes to BNCR-1101 Revision 13

Section 1.0 Legal and Financial

- Updated Appendix 1-5 to add Revision 13 Applications and Attachments

Section 4.1

- Plate 4.1-1 Pit Layout and Facilities Map
