Tina, as we spoke on the phone. I was seeing who to reach out to with Basin Electric Power Cooperative. We will be building a construction wind project outside of Wishek, ND. We were told that Basin Electric had powerlines near the project. On the screenshot below, in the red section we will be building a temporary office laydown yard, a permanent Operations building and there will be the project Substation in the same area the intersection is Hwy 13 and 37th Ave SE. We were checking to see who the best contact would be to reach out to about possibly getting power for the temporary office yard and the permanent operations building and substation. My contact information is also in the below.

Let us know if there would be a good contact for speaking with if this would be an option

Thank you

Michael Kipke
