Subject: RE: [EXT]RE: [External] RE: [EXT]MISO network load application for Badger Wind SS load

Justin,

Good afternoon. Please advise if you would like for a new load to be studied via Module B, you will need to submit an ADDNITDNR and if you have a new SINK node for your load then a new ADDSLOAD as well. Please note the AREF # 106855236 has been Annulled and cannot start until the SIS has been completed. Thank you.

John,

This is station service load for the Badger Wind facility, and please study it via the Module B.

Thanks,

Justin Davy | Delivery Services Engineer

Justin,

Good morning. Can you provide an update here. The request you submitted had a 7/1/25 start date. Thank you.

Justin,

Good afternoon. Can you please provide more information on this load? Is your intention that this new load be studied via Module B instead of the MTEP? Thank you.

Please see attached for a new network load application. This is new load at the MDU Wishek substation. Please acknowledge receipt of the documents and what the next steps are.
