Thank you Lee, please let us know what you need from us. Should we continue forward with the load submission or should we wait for further conversations with MDU?

Thank you,

J.P. Maddock | Manager, RTO & Delivery Services

Subject: [External] External: RE: Badger Wind SS - MDU Involvement

External Email - Use caution clicking links or opening attachments

Badger Wind is connecting into Wishek 230kV which is a MISO Tariff facility. MISO Transmission is open access and the Badger Wind Farm is KEM service area. Page 6 of the attached PDF shows the one line for the Wishek substation which MDU is currently rebuilding that the Badger Wind Farm are interconnecting with. Darcy just reached out to us to discuss this further.

Looking forward to discussing this more.

Thanks,

Lee

Subject: Badger Wind SS - MDU Involvement

70 PU-25-261 Filed 09/11/2026 Pages: 3
KEM Exhibit 16 - EMail String Dated September 3-4, 2025
Between Basin Electric and Lee Keller (KEM0096-0098)

Lee and Trisha,

We were talking with MDU on an unrelated topic and ended up on Badger wind station service. They mentioned that KEM doesn't have facilities in the area for the station service itself and that MDU was interested in serving that. They agree that the admin building and the collector sub should be KEM. Do you have any thoughts on this? Could you please provide a map/diagram o for this? I apologize as I'm not familiar with the area so I didn't know how to respond other than I wanted to reach out to you two.

Thank you,

J.P. Maddock
