The Coyote Creek Mining Company, L.L.C. has filed an application for Revision No. 14 to Surface Coal Mining Permit No. NACC-1302 for the Coyote Creek Mine. Revision No. 14 also updates the introductory information, pre-mining land use, general operations, surface water management, post-mining land use plans and topography, revegetation procedures, establishment and management, and vegetation assessment and success standards sections of the permit. Specific updates include updated design plans for sediment pond P24-06, the addition of design plans for diversion D25-01, post mining land use acreage adjustments in Sections 24 and 25, T143N, R89W to accommodate larger blocks of cropland and native grassland, and modifications to the native grassland and woodland planting seed mixtures. The revision also finalizes the location of the Section 36 farmer access road (18th Street SW) and finalizes the use of several ecological sites as native grassland reference areas.
