Case No. PU-25-281

ORDER ON ELIGIBLE TELECOMMUNICATIONS CARRIER DESIGNATION

April 1, 2026

Preliminary Statement

On October 31, 2025, LTE Wireless Inc. (LTE), a South Dakota Corporation with its principal offices located at 244 5th Avenue, Suite W221 FL2, New York, NY 10001, filed an application for designation as an eligible telecommunications carrier (ETC) for the purpose of receiving federal universal service support for low-income consumers under 47 CFR Part 54 Subpart E. This designation is also known as Lifeline-only ETC designation. LTE proposes to provide Lifeline universal services to eligible low-income customers as a commercial mobile radio service (CMRS) carrier throughout every telephone exchange in North Dakota.

On November 19, 2025, the Commission issued a Notice of Opportunity for Hearing (Notice) providing until January 2, 2026, for comments and requests for hearing. No comments or requests for hearing were received. The Notice identified the issues to be considered in this matter are:

1. Is the applicant qualified under the Telecommunications Act of 1996, Section 214(e) for designation as an ETC eligible to receive federal universal service funding?
2. What ETC universal service support area should be designated?
3. Is designation of the applicant as an ETC in the public interest?

The Notice stated that the Commission can determine the matter without a formal hearing.

On February 13, 2026, the Commission held an Informal Hearing to discuss the issues with LTE.

On February 20, 2026, LTE filed a signed Certification Relating to Order Provisions.

ETC Designation

The Telecommunications Act of 1996 provides financial support for universal services to common carriers that have been designated as ETCs and that (1) offer the universal services that are supported by federal universal service support mechanisms under section 254(c), either using its own facilities or a combination of its own facilities and resale of another carrier's services; and (2) advertise the universal services, advertise the availability of such services, and advertise the charges for such services using media of general distribution.

In its *Report and Order and Further Notice of Proposed Rulemaking* released February 6, 2012, in Docket No. FCC 12-11 at paragraph 368, the Federal Communications Commission (FCC) found that it would forbear from the "own-facilities" requirement contained in section 214(e)(1)(A) for carriers that seek to become Lifeline-only ETCs subject to the following conditions: (1) the carrier must comply with certain 911 requirements; and (2) the carrier must file, and the FCC must approve, a compliance plan providing specific information regarding the carrier's service offerings and outlining the measures the carrier will take to implement Lifeline service obligations as well as further safeguards against waste, fraud and abuse the FCC may deem necessary.

Under 47 CFR 54.201, a carrier seeking Lifeline-only ETC designation must demonstrate that it is financially and technically capable of providing Lifeline service in compliance with 47 CFR Subpart E. LTE is seeking Lifeline-only ETC designation.

Both federal law and state law give the Commission the authority to designate a common carrier as an ETC. In areas served by a rural telephone company, the Commission must find that ETC designation is in the public interest.

LTE was organized and incorporated in the state of South Dakota on April 9, 2018. LTE is a common carrier and reseller of commercial mobile radio service and will offer all of the services and functionalities detailed in Section 54.101(a) of the FCC Rules. LTE proposes to provide services to customers by using a combination of its own facilities and the underlying network of T-Mobile USA, Inc on a wholesale basis in order to provide the best coverage and service available for subscribers. LTE is currently authorized as a wireless ETC in the states of Minnesota and Missouri.

LTE will offer telecommunications services primarily to eligible low-income subscribers.

LTE will offer plan options including unlimited anytime minutes, unlimited text messages and 4.5GB data at a net cost to an eligible non-tribal Lifeline customer of \$0 per month. LTE will offer to all customers a free SIM card, custom calling features at no charge including 911 or enhanced 911 and the ability to use voice minutes for domestic long distance.

LTE seeks only Lifeline support from the low-income mechanism of the federal Universal Service Fund and does not seek support from the high-cost support mechanism. This program is designed to reduce the monthly cost of telecommunication services for eligible consumers, is distributed on a per-customer basis, and is directly reflected in the price that the eligible customer pays. Because LTE does not seek support from the high-cost support mechanism, designation of LTE as a Lifeline-only ETC will not pose any adverse effect on the growth in the high-cost portions of the Universal Service Fund (USF), nor will it create or contribute to an erosion of high-cost funding from any rural or nonrural telephone company. Increasing the number of designated Lifeline-only ETCs in North Dakota will provide the opportunity for increased participation by eligible consumers in the Lifeline program.

The Certification Relating to Order Provisions as signed by Faizel Hassad, Manager of LTE and filed on February 20, 2026, is incorporated by reference and attached to this order.

Consumers eligible for the Lifeline discounts offered by LTE will receive the benefits of nationwide calling areas and the convenience and security of mobile telephone service. LTE will bring increased customer choice and the benefits of competition.

Universal Service Support Area

The Commission must establish a geographic area (service area) for the purpose of determining universal service obligations and support mechanisms for the designated ETC. 47 U.S.C. § 214(e)(5).

The Act defines service area:

SERVICE AREA DEFINED-- The term "service area" means a geographic area established by a State commission for the purpose of determining universal service obligations and support mechanisms. In the case of an area served by a rural telephone company, "service area" means such company's "study area" unless and until the Commission and the States, after taking into account recommendations of a Federal-State Joint Board instituted under section 410(c), establish a different definition of service area for such company.

In its *Memorandum Opinion and Order*, FCC 13-44, released April 15, 2013, the Federal Communications Commission determined that carriers may be designated as a Lifeline-only ETC in partial rural service areas.

In this proceeding, LTE is requesting ETC designation in all North Dakota telephone exchanges, inclusive of tribal areas.

LTE has demonstrated that it is financially and technically capable of providing Lifeline service in compliance with 47 CFR Subpart E.

Based on the evidence in this proceeding, LTE is qualified under the Telecommunications Act of 1996, Section 214(e) for designation as an ETC eligible to receive federal universal service support for low-income consumers under 47 CFR Part 54 Subpart E.

It is in the public interest that LTE be designated as a Lifeline-only ETC in all North Dakota telephone exchanges.

LTE is registered with the Commission to provide commercial mobile radio and long-distance services.

LTE is registered with the Secretary of State of North Dakota and LTE is in good standing.

Having allowed all interested persons an opportunity to be heard and having heard, reviewed and considered all testimony and evidence presented, the Commission makes the following:

Order

The Commission orders:

1. LTE Wireless Inc. is designated as an eligible telecommunications carrier for the purpose of receiving federal universal service support for low-income consumers under 47 CFR Part 54 Subpart E. The designated service area in this proceeding consists of all study areas in North Dakota, inclusive of tribal areas.
2. LTE Wireless Inc. shall comply with the applicable annual reporting requirements set forth in North Dakota Administrative Code §69-09-05-12.1.
3. The February 20, 2026, Certification Relating to Order Provisions is incorporated by reference and attached to this Order.

**STATE OF NORTH DAKOTA
PUBLIC SERVICE COMMISSION**

LTE Wireless Inc.
Designated Eligible Carrier
Application

Case No. PU-25-281

**LTE Wireless Inc.
CERTIFICATION RELATING TO ORDER PROVISIONS**

I am Faizel Hassad, a representative of LTE Wireless Inc. (LTE) with authority to bind LTE and I certify that:

1. LTE is seeking designation as a Lifeline-Only Eligible Telecommunications Carrier (Lifeline-Only ETC) for all non-rural telephone company wire centers within the state of North Dakota, all rural telephone company study areas within the state of North Dakota, and all Tribal areas within the non-rural and rural telephone company areas within the state of North Dakota, which is the entire state of North Dakota.
2. For the telephone exchanges enumerated, LTE understands and agrees to the conditions and criteria set forth in Chapter 49-21 of the North Dakota Century Code and Chapter 69-09-05 of the North Dakota Administrative Code that pertain to Lifeline-Only Eligible Telecommunications Carriers (Lifeline Only ETC) , and LTE will be responsible for compliance with this Certification, the Public Service Commission's order in this proceeding, and conditions and criteria set forth in the applicable federal and state laws and rules pertaining to Lifeline-Only ETCs.
3. LTE agrees to comply with all statements, processes and procedures set forth in its Application for designation as a Lifeline-Only ETC in the enumerated telephone exchanges. LTE agrees that all statements made and matters set forth in its Application are true and correct to the best of LTE's knowledge, information, and belief.
4. LTE will use the federal low-income universal service support it receives only for the provision of services for which the support is intended.
5. LTE meets all of the prerequisites to be designated as a Lifeline-Only ETC throughout the proposed ETC Designated Area in this proceeding.
6. LTE provides each of the services supported by federal universal service support mechanisms, specified in Federal Communications Commission's (FCC's) rules, 47 C.F.R. § 54.101, and will offer these supported services in North Dakota upon designation as a Lifeline-Only ETC, including voice grade access, minutes of use for local service at no additional charge, access to emergency services and toll limitation services.

7. LTE will provide service on a timely basis to requesting customers within the applicant's proposed designated service area where the applicant's network already passes the potential customer's premises.
8. LTE will provide service within a reasonable period of time, if the potential customer is within LTE's proposed designated service area but outside its existing network coverage, if service can be provided at reasonable cost by:
 - (a) Modifying or replacing the requesting customer's equipment;
 - (d) Adjusting network or customer facilities; or
 - (e) Reselling services from another carrier's facilities to provide service.
9. LTE will not seek Universal Service Fund high-cost support for any telephone exchanges in its designated service area in North Dakota.
10. LTE will use all available means to ensure customers are eligible for the Lifeline program at the time of sign-up and recertification in accordance with the federal eligibility criteria in 47 C.F.R. § 54.409 and the relevant proof documentation specified in 47 C. F. R. § 54.410. LTE will check all available databases including the National Lifeline Accountability Database to prevent duplication and determine eligibility.
11. LTE has taken, and will continue to take, steps to work with its underlying carriers to remain functional in emergency situations by: (1) maintaining a reasonable amount of backup power to ensure functionality without an external power source; (2) maintaining the ability to re-route traffic around damaged facilities and to manage traffic spikes resulting from emergency situations; and (3) establishing procedures for employees to follow in an emergency to prevent or minimize interruption or impairment of telecommunications services.
12. LTE will meet or exceed applicable consumer protection and quality standards and will comply with the Cellular Telecommunications and Internet Association's (CTIA) Consumer Code for Wireless Service
13. LTE will advertise the availability of the supported services detailed in its Application, and the corresponding rates and charges, in a manner designed to inform the general public within North Dakota. This advertising will occur through a combination of media channels, such as television and radio, newspaper, magazine and other print advertisements, outdoor advertising, direct marketing, and the Internet.
14. LTE will offer the services described in its Application.
15. LTE understands and agrees that if LTE has not advertised its Lifeline services or signed up any North Dakota customers within 12 months of the effective date of LTE's designation as a Lifeline-only ETC, the Public Service Commission may revoke LTE's Lifeline-only ETC designation and North American may reapply to be designated as a Lifeline-only ETC in North Dakota.
16. LTE will comply with all applicable annual reporting requirements associated with

being an ETC in North Dakota including filing with the Public Service Commission a copy of each report filed with the FCC, within 30 days of filing with the FCC.

17. LTE understands and agrees that its ability to offer service is subject to suspension or revocation for failure to comply with the Public Service Commission's orders, or applicable statutes, rules, regulations, standards, and other authorizations.
18. LTE agrees to maintain the records to demonstrate that LTE has complied with the requirements of the Public Service Commission's order(s) and that LTE will preserve records demonstrating compliance for Public Service Commission inspection at any reasonable time upon reasonable notice.
19. LTE understands and agrees that, to the extent there are any conflicts or inconsistencies between LTE's Application and the provisions in this Certification, the Certification provisions control.

Dated this 20th day of February, 2026.

LTE Wireless Inc.
