AMDT Cost Recovery 2027
Rates
NOTICE OF OPPORTUNITY FOR HEARING

On July 31, 2026, Otter Tail Power Company (OTP) filed a request for approval of its Advanced Metering & Distribution Technology Cost Recovery Rider (AMDT Rider) Rate for 2027. The purpose of the AMDT Rider is to recover the costs associated with advanced metering infrastructure and demand response not presently reflected in retail rates from OTP North Dakota customers.

OTP proposed to recover approximately \$2,457,724 during the recovery period from January 1, 2027, through December 31, 2027, through a per meter charge for each customer class. The proposed residential rate will decrease from \$2.28 per meter per month to \$1.86 and the Large General Service – Secondary rate will decrease from \$21.29 per meter per month to \$14.26.

The issues to be considered in this proceeding are:

- Do the investments and associated costs qualify for recovery?
- Whether the rate adjustments are consistent with the terms of OTP's tariff?
- Are the proposed rates just and reasonable?

Those interested are invited to comment on the application in writing. Persons desiring a hearing must file a written request identifying their interest in the proceeding and the reasons for requesting a hearing. Comments and requests for hearings must be received by October 9, 2026. If deemed appropriate, the Commission can determine the matter without a formal hearing.
