As discussed with Commission Staff, Homestead Wind has provided hard copies of the executive summaries of the Updated Class II Architectural Report and the Updated Class III Archaeological Report in proposed Exhibits 7 and 8, respectively. Electronic copies of the full Updated Class II Architectural Report and Updated Class III Archaeological Report (**PUBLIC** version) are being provided in the e-mail filing.

An unredacted, **NONPUBLIC** version of proposed Exhibit 8 (Updated Class III Archaeological Report) and the associated GIS data will be provided under separate cover with an Application for Protection of Information.

Electronic copies of this letter and the above-referenced proposed hearing exhibits were filed with the Commission today via e-mail. Please note that we are sending binders directly to Ms. Hogan and Mr. Pelham, with six of the binders being delivered to the Commission. Also, please note that Homestead Wind plans to offer the above-referenced proposed hearing exhibits as exhibits at the public hearing on September 29, 2026. Thus, the index and the tabs in the binders will correspond to the numbered exhibits Homestead Wind presents at the public hearing. Since binders are being provided in advance, Homestead Wind does not plan to bring binders for the Commission, Commission counsel, and Commission staff to the hearing.

If you have any questions, please let me know.

Sincerely,

A handwritten signature in black ink that reads "Mollie M. Smith". The signature is fluid and cursive, with the first letters of each name being capitalized and prominent.
