Matt Eberl Resume

Matthew J. Eberl

Professional Experience

Apex Clean Energy, Charlottesville, VA

Senior Development Manager – 2024-2026

Development Manager – 2022 – 2024

Manages the full lifecycle of utility-scale renewable energy projects from early-stage site identification through construction. This includes representing Apex with federal, state and local officials, regulators, utilities, RTOs, and other stakeholders throughout the project development process. Interprets technical engineering and environmental reports and studies to determine project impact and pertinence towards application requirements. Coordinates project grid interconnection steps and works with technical teams. Directs land agents, negotiates agreements, and fosters relationships with landowners

Blue Fox Investments LLC/MLJ Foods Inc, Charlottesville, VA

President & Owner – 2008-2022

Executive management of a diversified group of holdings in real estate development, retail operations, and environmental consulting. Responsible for management and oversight of all aspects related to permitting, land development, and construction during the growth & operation of the company.

ATC Associates Inc, Columbia, MD

Branch Manager – 2003-2008

Division Manager – 2000-2003

Project Manager- 1998-2000

Managed operations for the Mid-Atlantic branch of a multi-national firm specializing in brownfield redevelopment, real estate due diligence, environmental remediation and construction services. As Branch Manager, responsible for business development, client services, and financial management for a branch with over 100 employees including engineers, architects, geologists, and scientists. As Division Manager, completed oversight of multiple on-going development projects involving geotechnical investigations, remediation design & implementation, and construction management. Also responsible for management of local, state, and federal permitting processes for large-scale construction projects throughout the Mid-Atlantic.

Education

State University of New York (SUNY) Environmental Science & Forestry (ESF)
B.S., Environmental Engineering 1997
