Subject: Re: Homestead Wind & Private airfield

Hey Matt

My airstrip will be unaffected by the proposed turbine location indicated on the map in red.

Regards

Tom Hought

Hi Tom – Thank you for your time today to discuss the private airstrip on your property. As discussed, we have designated a potential turbine location approximately 3,054' west of this airstrip and you have confirmed that this will not pose any issues for your continued use of that facility. I have included a picture of the proposed turbine location in **RED** below with the associated distance from the edge of the airstrip. Please let me know if you have any further questions about this. Also, please respond to this email to confirm your receipt. Thank you again for your continued participation in the Homestead Wind project. -Matt
