Subsection A: *A description of the general location, size, and type of all facilities to be owned or operated by the utility during the ensuing ten years, as well as those facilities to be removed from service during the ten-year period*

1. ALLETE Clean Energy, Inc. ("ACE"), is a wholly owned subsidiary of ALLETE, Inc. Launched on July 28, 2011, ACE develops and acquires capital projects for electric utilities, cooperatives, municipalities, independent power marketers and large end users. ACE owns and operates Glen Ullin Energy Center (formerly known as Clean Energy #1) Wind Project (PU-11-662, PU-17-302, and PU-19-107).
2. ACE completed construction of the Glen Ullin Energy Center wind project (PU-11-662, PU-17-302, and PU-19-107) and put in service on December 19, 2019. The project is located in Mercer and Morton Counties, North Dakota, and consists of 43 turbines (4 x GE 2.3-116 and 39 x GE 2.5-116) for a total project capacity of approximately 106 MW. The energy from the project is being delivered to Xcel Energy under a Power Purchase Agreement approved by the Minnesota Public Utilities Commission.
3. Glen Ullin Energy Center wind project is not projected to be removed from service within the next ten-year period.

Subsection B: *An identification of the location of the tentative preferred site for all electric energy conversion facilities and the tentative location of all electric transmission facilities on which construction is intended to be commenced within the ensuing five years and such other information as may be required by the commission.*

1. Not applicable.

Subsection C: *A description of the efforts by the utility to coordinate the plan with other utilities so as to provide a coordinated regional plan for meeting the utility needs of the region.*

1. Glen Ullin Energy Center has a nameplate capacity of approximately 106 MW and sells the output to Xcel Energy under a power purchase agreement.

Subsection D: *A description of the efforts to involve environmental protection and land-use planning agencies in the planning process, as well as other efforts to identify and minimize environmental problems at the earliest possible stage in the planning process.*

1. See Application and other information in Case No. PU-11-662.

Subsection E: *A statement of the projected demand/or the service rendered by the utility for the ensuing ten years and the underlying assumptions for the projection, with that information being as geographically specific as possible, and a description of the manner and extent to which the utility will meet the projected demands.*

1. As noted in Subsection A, the energy from this project is being delivered to Xcel Energy under a Power Purchase Agreement approved by the Minnesota Public Utilities Commission.
2. ACE has not performed any other analysis of projected demand for the ensuing ten years.

Subsection F: *Any other relevant information as may be requested by the commission.*

1. Not applicable.
