

TEN YEAR PLAN: 2026-2036

Lindahl Wind Project, LLC

June 2026

In accordance with N.D.C.C. § 49-22-04 and N.D.A.C. Ch. 69-06-02, Lindahl Wind Project, LLC ("Lindahl Wind"), submits the following Ten Year Plan for years 2026 through 2036.

(1) A description of the general location, size, and type of all facilities to be owned or operated by the utility during the ensuing ten years, as well as those facilities to be removed from service during the ten-year period.

Lindahl Wind is a Delaware limited liability company, authorized to do business in the State of North Dakota. Lindahl Wind is owned by Harbert Management Corporation ("HMC"). Lindahl Wind owns and operates a 150 megawatt ("MW") wind energy conversion facility known as the Lindahl Wind Farm Project ("Project"), located approximately four miles north of the City of Tioga in Williams County, North Dakota.

On July 7, 2015, Williams County issued a Conditional Use Permit for the Project. On December 2, 2015, the North Dakota Public Service Commission ("Commission") issued Findings of Fact, Conclusions of Law and Order ("Order") granting Certificate of Site Compatibility No. 47 to Lindahl Wind for the Project (see Case No. PU-15-482). Lindahl Wind began construction of the Project in May 2016, and the Project was placed in-service in early 2017.

Other than the Project, Lindahl Wind does not have any transmission or generation facilities located in North Dakota, and the Project will have an estimated life of greater than 10 years. As such, Lindahl Wind does not have any plans to decommission any transmission or generation facilities within the timeframe of this plan.

(2) An identification of the location of the tentative preferred site for all energy conversion facilities and the tentative location of all transmission facilities on which construction is intended to be commenced within the ensuing five years and such other information as may be required by the commission. The site and corridor identification shall be made in compliance with the criteria published by the commission pursuant to section 49-22-05.1.

As noted above, the Project was placed in-service in early 2017. The Project is located approximately four miles north of the City of Tioga in Williams County, North Dakota.

As set forth in the Commission's Order (referenced above), the location of the Project complies with the Commission's siting criteria, including the exclusion and avoidance area criteria referenced in N.D.C.C. § 49-22-05.1 and identified in N.D.A.C. Ch. 69-06-08. Maps of the Project's site, and additional detail regarding the site, are provided in Case No. PU-15-482. Lindahl Wind has no plans to construct additional energy conversion facilities or transmission facilities in the next five years.

(3) A description of the efforts by the utility to coordinate the plan with other utilities to provide a coordinated regional plan for meeting the utility needs of the region.

Lindahl Wind has a power purchase agreement with Basin Electric Power Cooperative ("Basin Electric"). Energy is delivered from the physical point of interconnection (near the Lindahl Switching Station) to Basin Electric's membership via infrastructure owned and/or operated by Burke Divide Electric Cooperative, Mountrail-Williams Electric Cooperative and the Western Area Power Administration ("WAPA"). The Project has an interconnection agreement with the WAPA and an implementation agreement with Mountrail-Williams Electric Cooperative to facilitate the Project's interconnection to the transmission grid. The power produced by Lindahl Wind, which is located in the Bakken oil production region, helps Basin Electric and its membership meet the demand for electricity resulting, in part, from local oil and gas operations.

(4) A description of the efforts to involve environmental protection and land-use planning agencies in the planning process, as well as other efforts to identify and minimize environmental problems at the earliest possible stage in the planning process.

Lindahl Wind has designed a Project that optimizes the wind resource, minimizes the impact on land resources and potentially sensitive areas and follows the energy conversion facility siting criteria outlined in NDAC Section 69-06-08-01 and the Williams County Zoning Ordinance (1987, amended 2010). Lindahl Wind employed qualified environmental consulting firms to study and identify avoidance and exclusion areas within the Project site, in accordance with N.D.C.C. Ch. 49-22 and N.D.A.C. Ch. 69-06-08.

As discussed above, Williams County issued a Conditional Use Permit for the Project on July 7, 2015, and the Commission issued Certificate of Site Compatibility No. 47 for the Project on December 2, 2015 (see Case No. PU-15-482). Throughout Project development and construction, Lindahl Wind consulted with applicable local, state, and federal agencies and entities, and will continue to do so, as appropriate.

Additional information regarding Lindahl Wind's agency and entity contacts, and efforts to identify and minimize any potential environmental issues, is provided in Case No. PU-15-482.

(5) A statement of the projected demand for the service rendered by the utility for the ensuing ten years and the underlying assumptions for the projection, with that information being as geographically specific as possible, and a description of the manner and extent to which the utility will meet the projected demands.

As discussed above, Lindahl Wind has a long-term power purchase agreement with Basin Electric for the entire output of the Project. The renewable energy produced by the Project can be used by Basin Electric to meet the load requirements of Basin Electric's members.

STATE OF NORTH DAKOTA PUBLIC SERVICE COMMISSION

**IN THE MATTER OF THE FILING OF A TEN YEAR PLAN BY
LINDAHL WIND PROJECT, LLC**

NOTICE OF FILING TEN YEAR PLAN

2026-2036

Case No. PU-24-__

PLEASE TAKE NOTICE that Lindahl Wind Project, LLC, in accordance with N.D.C.C. § 49-22-04 and N.D.A.C. Ch. 69-06-02, filed a Ten Year Plan for the years 2026 through 2036 with the North Dakota Public Service Commission on June 15th 2026, and the Williams County Auditor on June 15th 2026.

Dated this 15th day of June, 2026
