**STATE OF NORTH DAKOTA
PUBLIC SERVICE COMMISSION**

**Montana-Dakota Utilities Co.)
2023 Electric Rate Increase)
Application)**

Case No. PU-26-241

PETITION TO INTERVENE OF AARP

Comes Now AARP¹, pursuant to Commission Rules of Practice and Procedure 69-02-01-05, 69-02-01-06, and 69-02-01-07, and respectfully petitions for intervention in the above-captioned matter.

In support of this petition, AARP states as follows:

1. On June 30, 2026, Montana-Dakota Utilities Co. (“MDU” or “Company”) filed a request for a \$34.5 million annual increase in revenues, based on a projected 2027 future test year, for its North Dakota electric customers. The proposal would increase electric rates by approximately **14.5%** overall (while increasing electric rates for residential households by **18.9%**).

2. AARP, with millions of members in all 50 States and the District of Columbia, Puerto Rico, and U.S. Virgin Islands, is a nonpartisan, nonprofit, nationwide organization that helps people turn their goals and dreams into real possibilities, strengthens communities and fights for the issues that matter most to families such as healthcare,

¹In 1999, the “American Association of Retired Persons” changed its name to simply “AARP”, in recognition of the fact that people do not have to be retired to become members.

from financial abuse. AARP has approximately 81,000 members in North Dakota, many of whom are electric customers of the Applicant Company.

3. AARP's interest in this matter and its grounds for intervention relate to the substantial increase in electric rates proposed by MDU for the residential customer class. AARP desires to advocate on behalf of residential electric customers in this case to ensure that their rates overall are no higher than a level that is just and reasonable, and to further ensure that residential customers do not pay more than their fair share compared to larger customer classes.

4. The MDU proposals in this case would directly and adversely impact many customers who are aged 50 and over. People aged 50 and over are more vulnerable to increases in energy prices. Generally, these consumers also devote a higher percentage of their total spending than do other age groups towards residential energy costs. Many older consumers also have special needs and safety concerns regarding their access to electric service.

5. AARP believes that its intervention and participation in this proceeding would serve the public interest. AARP will accept the procedural status of the rate case as it stands prior to intervention. AARP's intervention would not unduly delay the proceedings nor would it prejudice the rights of other parties.

5. AARP also intends to file a *Motion for Admission Pro Hac Vice* for attorney John B. Coffman with the North Dakota Public Service Commission and with the North Dakota Board of Law Examiners. Mr. Coffman has 37 years of experience as a utility rate expert and attorney. He routinely appears and participates in matters before other state public utility commissions, including rate case appearances in Missouri, Illinois,

state public utility commissions, including rate case appearances in Missouri, Illinois, Georgia, Florida, Alabama, Texas, New Jersey, California, Kansas, Arizona, Colorado, South Carolina, Alaska, and Minnesota. Mr. Coffman has been permitted to appear *pro hac vice* in previous rate cases by North Dakota Public Service Commission, including representation in MDU's most recent electric and natural gas rate cases.

6. Service of any document or Orders in this matter should be addressed to your undersigned attorney, and also to:

John B. Coffman

E-mail: john@johncoffman.net
Counsel for AARP

WHEREFORE, AARP respectfully requests that the Commission grant AARP's Petition to Intervene, entitling it to fully participate in this proceeding.

Respectfully submitted this 21st day of September, 2026.
