2024-2025	Associate Developer, Geronimo Power, Minneapolis, MN
2023-2024	Development Intern, Geronimo Power, Minneapolis MN
2021-2023	Sustainability Intern, University of Wisconsin- Madison, Office of Sustainability, Madison, WI

SPECIALTY AREAS/ EXPERTISE

Senior Developer, Late-Stage Projects – Ms. Doeden supports the advancement and execution of Geronimo's solar, storage, and emerging infrastructure projects through late-stage development. She leads project planning and risk management efforts across permitting, interconnection, commercial, tax, engineering, and stakeholder workstreams to position projects for successful construction and operation. Her responsibilities include coordinating with internal teams, consultants, utilities, landowners, and local, state, and federal agencies; managing critical project milestones; evaluating project risks and mitigation strategies; and supporting executive decision-making through project reporting, financial analysis, and strategic development initiatives
