Transmission Facility Cost Recovery
Rates**

Case No. PU-26-288

NOTICE OF OPPORTUNITY FOR HEARING

On July 15, 2026, Montana-Dakota Utilities Co. (MDU) filed a change to its Transmission Cost Adjustment rates to reflect updated electric transmission revenues and costs. Among those costs are charges for transmission-related services provided by Midcontinent Independent System Operator (MISO) and Southwest Power Pool (SPP) and the projected net transmission-related costs including the transmission revenues from a large electric customer taking service under MDU's Rate 45 tariff.

The effect of the rate change on the bill for a residential customer using 800 kWh per month is an increase of \$2.52 per month or \$30.24 per year proposed to be effective November 1, 2026.

The issues to be considered in this proceeding are:

1. Do the investments and associated costs for the new or modified electric transmission facilities qualify for recovery?
2. Do the proposed rates comply with the tariff?
3. Are the proposed rates just and reasonable?

Those interested are invited to comment on the application in writing. Persons desiring a hearing must file a written request identifying their interest in the proceeding and the reasons for requesting a hearing. **Comments and requests for hearings must be received by September 25, 2026.** If deemed appropriate, the Commission can determine the matter without a formal hearing.
