Good morning Konrad.

There was no damage to the pipeline as a result of the ground disturbance activity.

Thank you,

Nick Berning – Specialist, Regulatory US Ops

Good morning, Nick,

We received Pembina Pipeline's One-Call Complaint.

I have a follow-up question, was there any damage to the pipeline?

Thanks,

Konrad Crockford
Director, Compliance Division

NDPSC,

Please find a completed one call complaint form being submitted for Alliance Pipeline owned by Pembina. This complaint is being submitted due to an excavator failing to notify personnel from Pembina on timing of excavation activity for road construction over the Alliance 12" pipeline after the pipeline was marked for One Call ticket request 26080324. A crossing agreement was established with the excavator with clear instructions to notify pipeline personnel prior to performing ground disturbance. Pembina personnel discovered the ground disturbance during a drive by inspection to check status of the project. Approximately 10-12" of cover was removed over the operating pipeline.

Please reach out with any questions or clarifications that may arise from review of this report.

Thank you,

Nick Berning – Specialist, Regulatory US Ops
