Description of the alleged violation/concern. If more space is required, attach additional page(s). Kamoni Water Wells drilled a water well adjacent to WBI Energy's 6-inch high-pressure natural gas transmission pipeline at Cavendish Farms in Jamestown, ND, sometime in July or August 2026. A WBI Energy employee discovered this well on August 5th, 2026, while responding to an unrelated locate request. A review of WBI Energy records indicated that no One-Call request had been received prior to the installation of the water well. At the time WBI's discovery of the well, it appeared to have been installed recently, as the surrounding ground showed signs of fresh disturbance. Due to the close proximity of this well to WBI's pipeline, the pipeline was exposed and inspected for damage on August 6th, 2026. During the inspection, it was determined that the well drilling activity had damaged the pipeline. See the attached photographs for documentation of the damage. The pipeline was taken out of service on August 7, 2026, and the damaged section was repaired.
