**Basin Electric Power Cooperative  
Wheelock to Saskatchewan 230kV Transmission Line  
Siting Application**

**Case No. PU-25-283**

**Basin Electric Power Cooperative  
Tande to Saskatchewan 230kV Transmission Line  
Siting Application**

**Case No. PU-25-284**

**NOTICE OF CONSOLIDATED HEARINGS**

On November 4, 2025, Basin Electric Power Cooperative (Basin) filed an application with the Public Service Commission for a certificate of corridor compatibility and route permit for a 53-mile 230-kV electrical transmission line located in Divide and Williams Counties, North Dakota. The project will originate at the Wheelock substation near Ray, ND, and terminate at the Canadian border near Crosby, ND.

Also on November 4, 2025, Basin filed an application with the Public Service Commission for a certificate of corridor compatibility and route permit for a 58-mile 230-kV electrical transmission line located in Burke, Divide and Mountrail Counties, North Dakota. The project will originate at the Tande substation near Tioga, ND, and terminate at the Canadian border near Crosby, ND. These projects will be consolidated for the purpose of hearings only. Both routes are shown on the attached map.

On November 11, 2025, Basin filed amended applications containing minor corrections to both cases.

Consolidated **Public Hearings** on the applications in Case Nos. PU-25-283 and PU-25-284 are scheduled for **March 17, 2026, at 10:00 a.m. Central Time at the Divide County Courthouse, 200 North Main, Crosby, ND 58730** and **March 20, 2026, at 10:00 a.m. Central Time at the Ray Auditorium, 215 Main Street, Ray, ND 58849.**

The issues to be considered in the application for a certificate of corridor compatibility and a route permit are:

1. Will construction, operation, and maintenance of the facility at the proposed location produce minimal adverse effects on the environment and upon the welfare of the citizens of North Dakota?
2. Is the proposed facility compatible with the environmental preservation and the efficient use of resources?

3. Will construction, operation, and maintenance of the facility at the proposed location minimize adverse human and environmental impact while ensuring continuing system reliability and integrity and ensuring that energy needs are met and fulfilled in an orderly and timely fashion?

For more information contact the Public Service Commission, State Capitol, Bismarck, North Dakota 58505, 701-328-2400; or Relay North Dakota, 1-800-366-6888 TTY. If you require any auxiliary aids or services, such as readers, signers, or Braille materials, please notify the Commission at least 24 hours in advance.
