PSC Schedules Public Hearing for Proposed Pipeline Project in Williams County

BISMARCK, ND – The North Dakota Public Service Commission (PSC) will hold a public hearing on Thursday, August 6, regarding a proposal for a pipeline project in Williams County.

OE2 North, LLC, is proposing to construct two new pipelines in Williams County. The first is an approximately 1.28-mile long 8-inch natural gas liquids (NGL) pipeline that would have a throughput of up to 80,000 barrels per day and the second is an approximately 4.67-mile long 20-inch residue gas pipeline that would have a throughput of up to 250 million cubic feet per day. The estimated cost of the project is \$6 million.

The pipelines would begin at the proposed Bill Sanderson Gas Processing Plant approximately 15 miles west of Williston, and remain co-located for the first mile to a tie-in point of the NGL pipeline to an existing pipeline. The residue gas pipeline would continue southwest for approximately 3.39 miles to a tie-in point to another existing pipeline. The pipelines will follow existing infrastructure for the entire route. (Note to the media: A map showing the proposed location of the project has been provided to you for use with any announcements/stories you print.)

In keeping with recommendations of public health officials to minimize public gatherings during this COVID-19 emergency, this hearing will be held remotely and members of the public are encouraged to provide their comments in writing or by telephone.
