PSC Schedules Public Hearing for Proposed Changes to Badger Wind Project in Logan and McIntosh Counties

BISMARCK, ND – The North Dakota Public Service Commission (PSC) will hold a public hearing on Thursday, July 11, 2024, regarding proposed amendments to a permit to construct a wind farm and associated facilities in Logan and McIntosh Counties.

Badger Wind, LLC, is requesting an amendment to their siting permit for the Badger Wind Project. The project was granted a permit from the Commission in Nov. 2022. Since then, Badger Wind has made changes to the project, including expanding the project boundary and design modifications. The project would now be located within an approximately 34,897-acre project area (compared to the 31,467-acre area previously approved). The project would also now use a 2.82 megawatt turbine (rather than a 3.4 megawatt turbine) with up to 93 turbines being built (previously 74). Estimated cost of the project is \$472 million.

The project would be located in Logan and McIntosh Counties, adjacent to the western and northern sides of Wishek, N.D. (Note to the media: A map showing the proposed location of the project has been provided to you for use with any announcements/stories you print.)

Details for the public hearing are as follows:

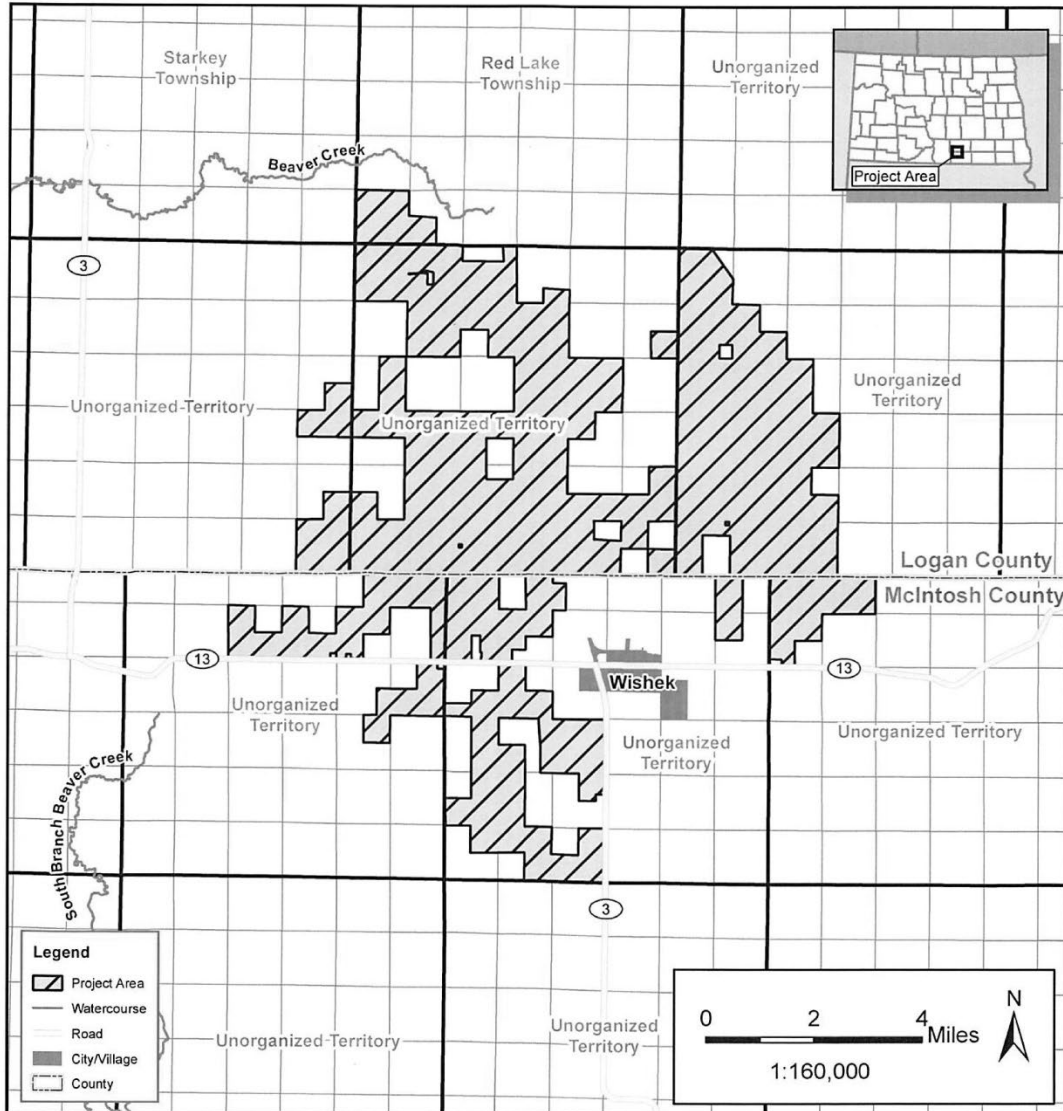

- **Thursday, July 11, 2024 – 9 a.m. Central**
- **Wishek Civic Center**
715 1st Avenue South
Wishek, ND 58495

The hearing provides an opportunity for members of the public to contribute to the PSC's official record. Any comments from members of the public must be received at the hearing to be part of the record. People with concerns, questions or support/opposition for the project are encouraged to attend the hearing and present their information. Information received after the hearing will not be part of the official record and cannot be used as a basis for the Commission's decision unless certain additional procedures are followed.

The North Dakota Public Service Commission is a constitutionally created state agency with authority to permit, site and regulate certain business activities in the state including electric and gas utilities, telecommunications companies, power plants, electric transmission lines, pipelines, railroads, commercial weighing devices, pipeline safety and coal mine reclamation. For more information, contact the Public Service Commission at (701) 328-2400 or www.psc.nd.gov.
