PSC Schedules Public Hearing for Proposed Pipeline Projects in McKenzie County

BISMARCK, ND – The North Dakota Public Service Commission (PSC) will hold a public hearing on Thursday, July 3, regarding an application for siting permits for two pipeline projects in McKenzie County.

Hiland Crude, LLC, is requesting siting permits for two projects in McKenzie County. The first proposed project is for an 8-inch steel crude oil pipeline, approximately 3.4 miles long. The Gullickson Reroute Pipeline Project will connect two existing crude oil transportation pipelines as part of Hiland Crude's Market Center System. Maximum throughput is approximately 80,000 barrels of crude oil per day. The estimated cost of the project is \$9.5 million.

The second proposed project is a 10-inch steel natural gas liquid (NGL) pipeline, approximately 28.1 miles long. The Hiland Express Spine Pipeline Project will provide take-away capacity for Y-grade NGLs (a mixture of ethane, propane, butanes, iso-butane mix, pentanes, and natural gasoline) produced at the Hiland Roosevelt Gas Processing Plant to the Camp Creek Injection Station, where products will enter an existing NGL pipeline system. Construction of the project would provide transportation of up to 80,000 barrels of NGLs per day. The estimated cost of the project is \$37.2 million.

(Note to the media: Maps showing the proposed locations of the projects have been provided to you for use with any announcements/stories you print.)

Details for the public hearing are as follows:

- **Thursday, July 3, 2025 – 8 a.m. Central**
Teddy's Residential Suites
113 9th Avenue Southeast
Watford City, ND 58854

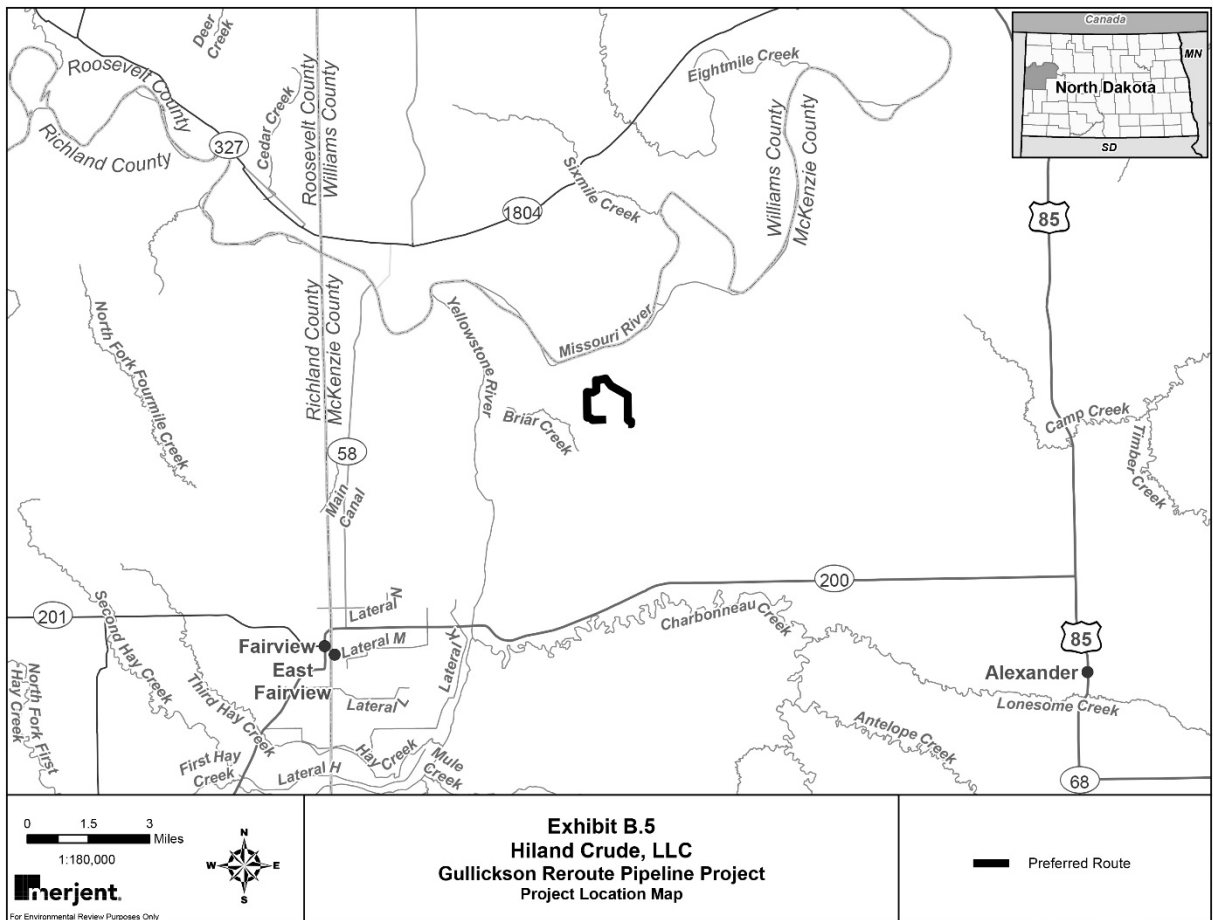

The hearing provides an opportunity for members of the public to contribute to the PSC's official record. Any comments from members of the public must be received at a hearing to be part of the record. People with concerns, questions or support/opposition for the project are encouraged to attend the hearing and present their information. Information received after the hearing will not

be part of the official record and cannot be used as a basis for the Commission's decision unless certain additional procedures are followed.

The North Dakota Public Service Commission is a constitutionally created state agency with authority to permit, site and regulate certain business activities in the state including electric and gas utilities, telecommunications companies, power plants, electric transmission lines, pipelines, railroads, commercial weighing devices, pipeline safety and coal mine reclamation. For more information, contact the Public Service Commission at (701) 328-2400 or www.psc.nd.gov.
